About Me

With a background in social work and a passion for coding, I bring a unique blend of empathy and technical expertise to the table. I excel in roles where I can leverage my coding skills to interact with customers, understand their needs, and deliver effective programming solutions. My proficiency spans across backend development, with a readiness to adapt to frontend and other software development aspects as required.

Skills

- **Programming Languages:** JavaScript
- **Frameworks and Technologies:** AngularJS, Bootstrap, Vue.js, Express.js, Node.js
- **Database Management:** MongoDB
- **Version Control:** GitHub, GitLab
- **Soft Skills:** Communication, Team Building, Report Writing
